FLUSHING NOTICE

October 31, 2018

Our required fall flushing program for water quality maintenance will continue to take place Monday through Saturday, from 8:00 p.m. to 4:00 a.m., weather permitting.

The next sections to be flushed include parts of Sections Two and Four, as well as Section Six, as shown on the following map.

Flushing will start on Cocasset Street, and will include Leonard Street, Elm Street and East Belcher Road, as well as side streets in the area.

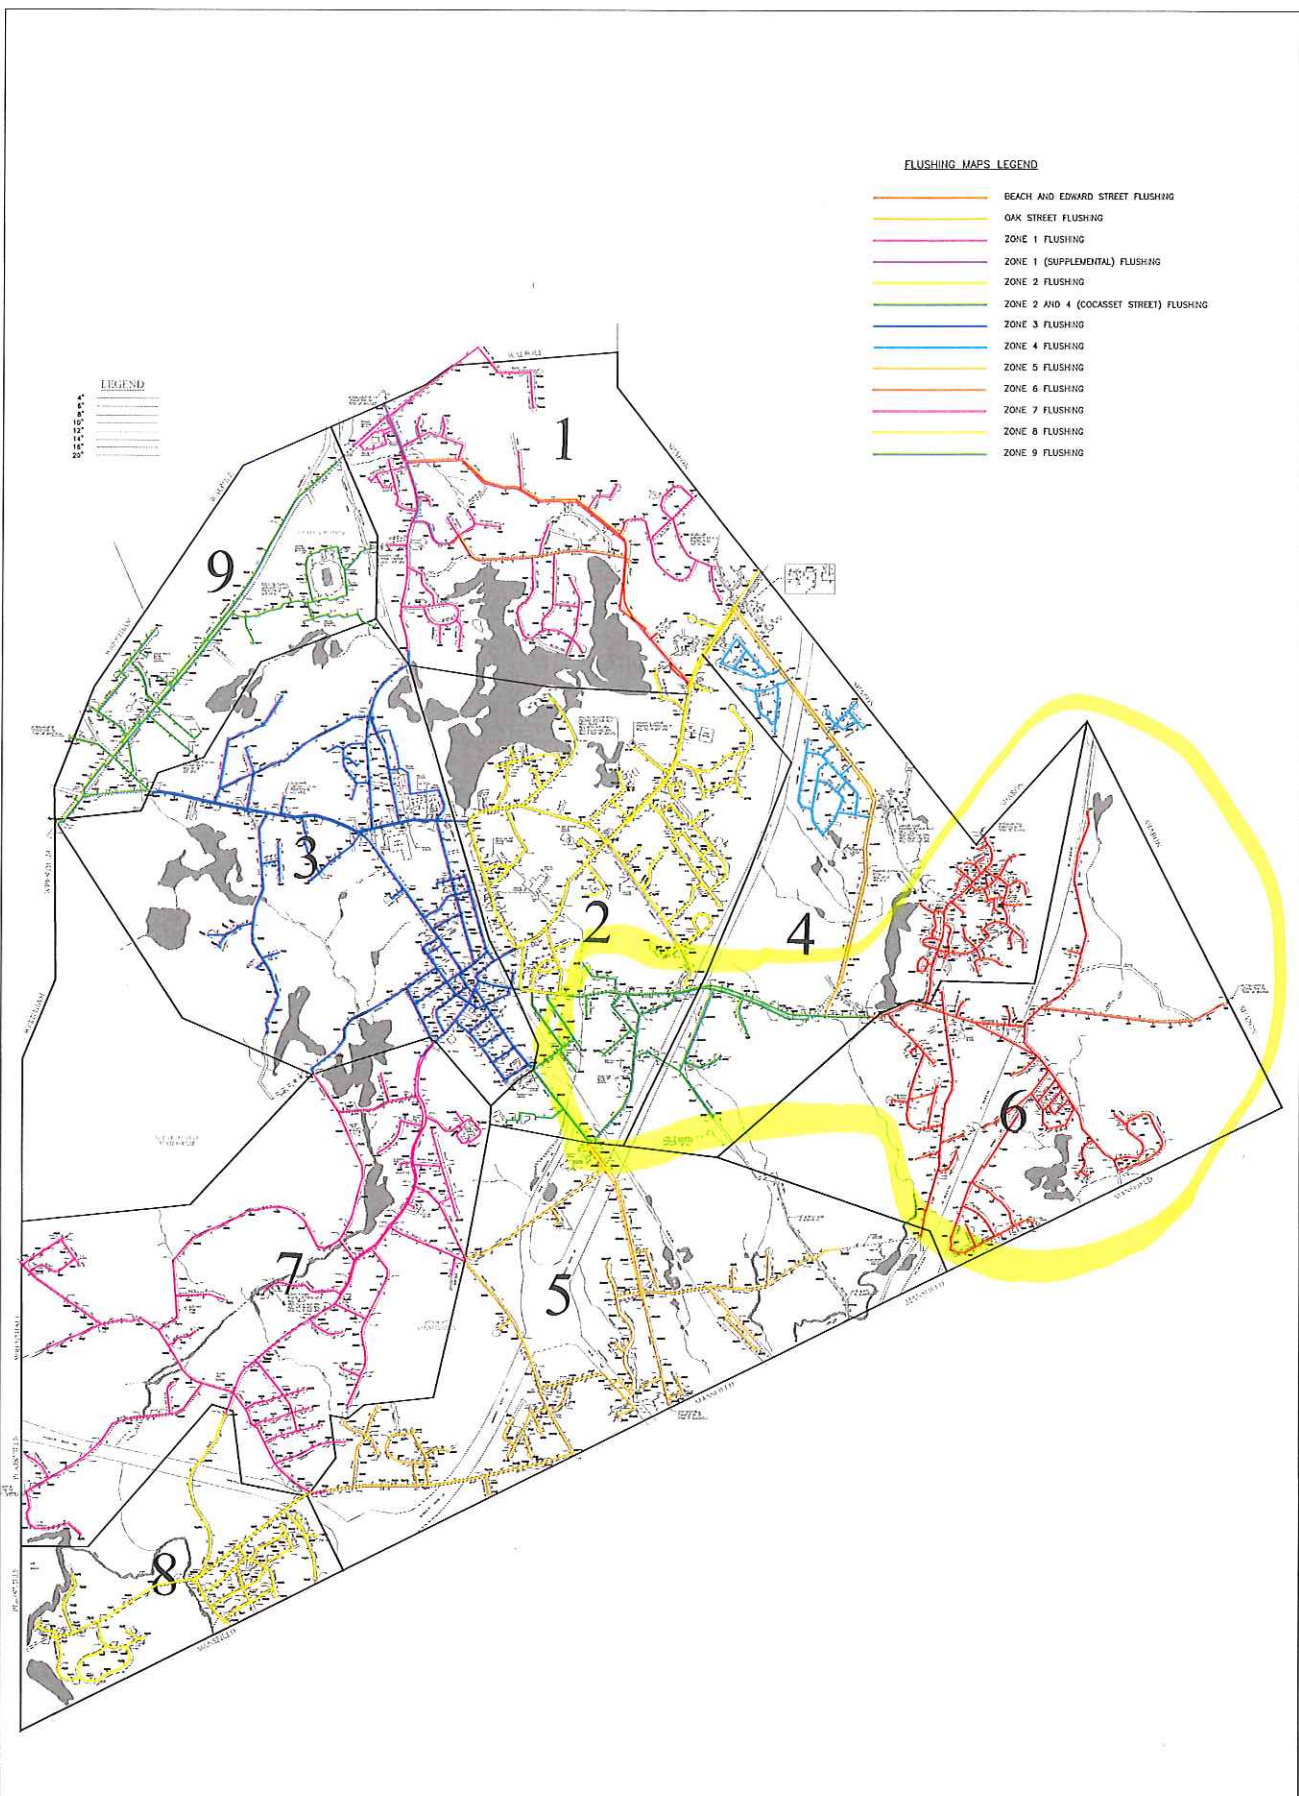

During the week of November 5, 2018, the flushing program will continue on Cocasset Street, East Street, Willow Street and Morse Street, including side streets.

The following week, flushing will take place on Summer Street, the Beaumont's Pond area, and in Cannon Forge. This will include side streets in the area.

Please look for the flushing signs in your neighborhood – this will indicate that flushing in the area is imminent. Updates will be posted on the Water Department web page.

Residents and businesses are advised that there may be some temporary discoloration of water or loss of pressure. Caution should be used during this time when using filtering systems, washing machines, dishwashers, etc. If you have any questions, please contact the Water Department at (508) 543-1209.

Thank you.
